

Letter to Editor

Dear Deb,

The Florida Flywheelers Antique Engine Club will be featuring Cockshutt and Oliver at their February 2023 Show near the city of Fort Meade, Florida. The show dates are February 22 – 25, 2023. This is a very big show with lots of activities going on. There are two parades daily and a huge flea market. There is also a Village with several display buildings. Camping is available for exhibitors close to the feature area. There are several hotels in the Ft. Meade, Avon Park or Sebring area.

We will have a tent to display small items and a large area to display our tractors and equipment.

Exhibitors: I would like for anyone who is planning on exhibiting to contact me so I can alert the gate staff.

Campers: If you are planning on camping, please let me know so I can reserve you a spot. Hookups are available but air conditioners are not allowed to be run. There is another camping area on the showgrounds where you are allowed to run your generator and A/C.

Vendors: The sale of Cockshutt items under the feature tent will be allowed. Please contact me if you need a table.

The show grounds are closed to auto and truck traffic from 9am to 4pm the days of the show. So, if you arrive during these hours you will need to wait until 4pm to move in. At this show, feature exhibitors will enter through the camping gate instead of the vendor/exhibitor gate. This is new for 2023.

Again, this is a great show and I hope we have a good turnout. Please contact me if you plan to exhibit or camp or need a vendor table.
